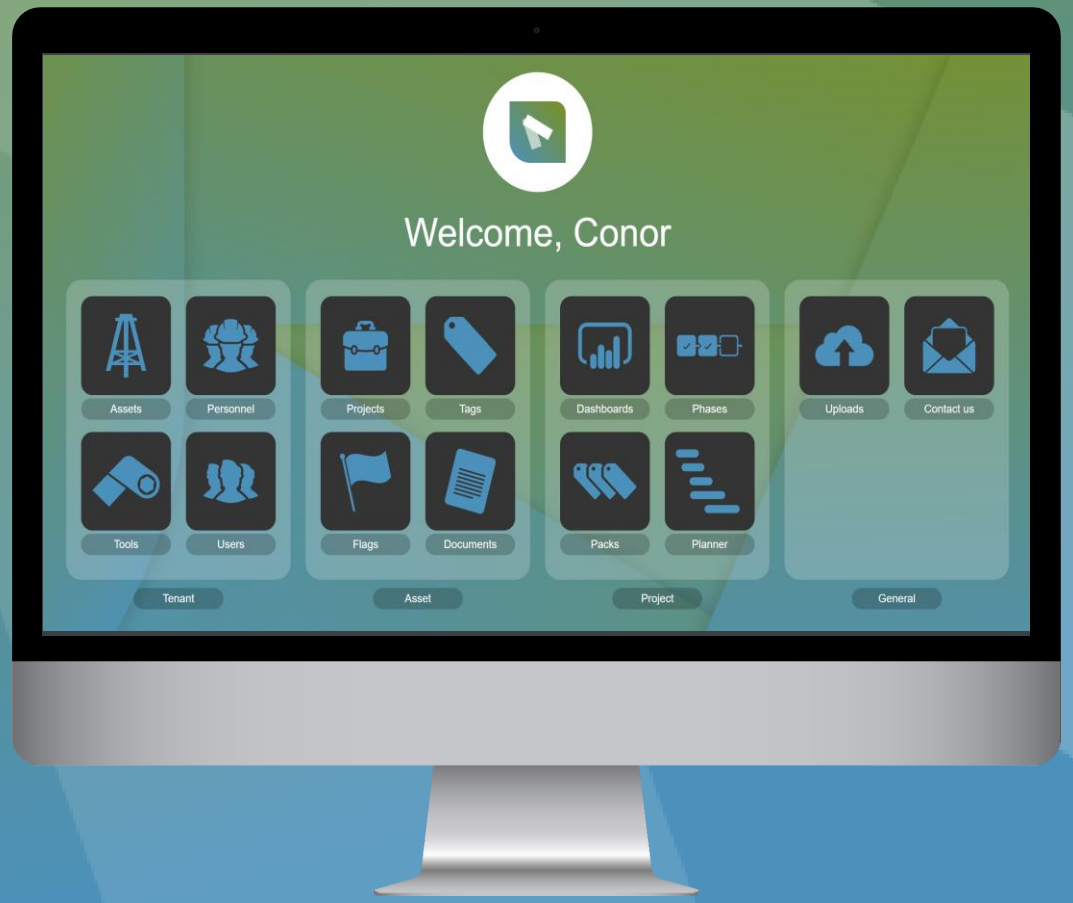
asset55 Operate



Operate

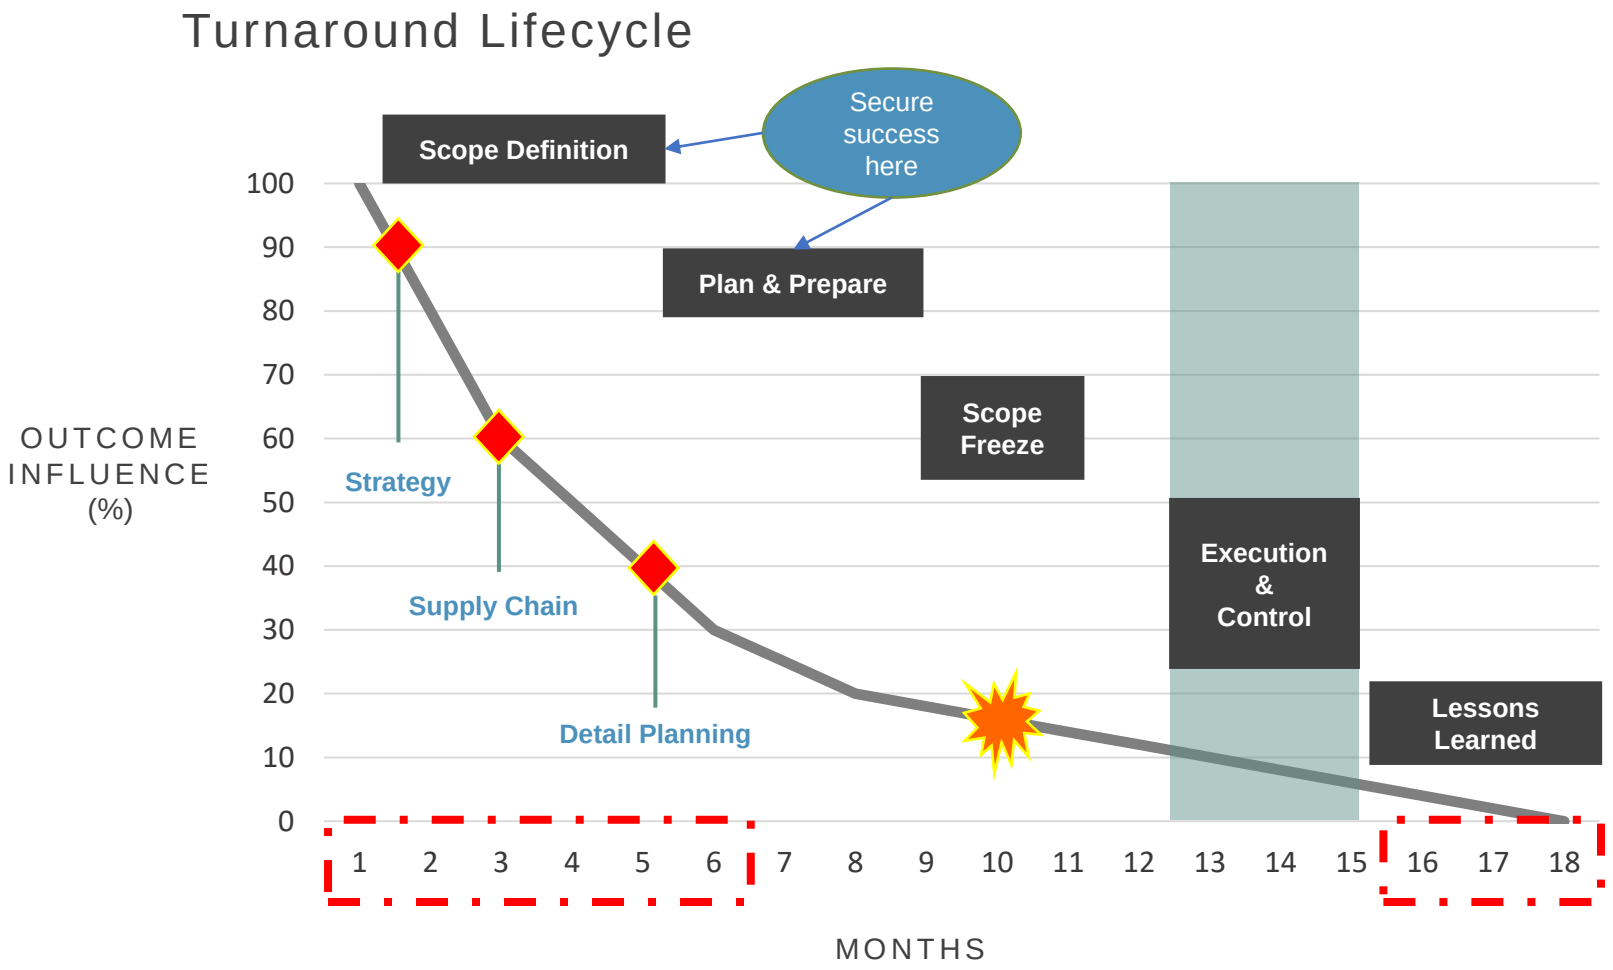
Operate is a cloud-based collaboration software for sustainable preparation, planning and execution of time critical tasks.

Operate was developed by industry leaders to secure improved efficiency and assurance of turnarounds in an operating environment.

How we work:

- Maintain centralised & trusted data
- Standardise Planning & Preparation
- Best practice scope management

Best practice mitigation



UKCS Production Efficiency Report 2021

North Sea Transition Authority – Issued July 2022

- 73% Production Efficiency
- 45% increase in shutdown days in 2021
- 27% of losses due to plant shutdown
- Deferred shutdown days accumulating

Why asset55 Operate?

- Mission critical software developed by industry for industry.
- Project support and assurance from subject matter experts.
- Operate best practice secures a sustainable project philosophy.

Definition & Objectives

- Robust scope & asset readiness

Preparation & Control

- 4D digital planning and work preparation

Compliance & Assurance

- Standardised work packages & schedules
